PARENT INFORMATION & EDUCATION SUPPORT GROUP

BuxMont CHADD
is pleased to announce
a special presentation by

Michael Cassano, Ph.D.

"Don't Think You Have to Do It Alone"

Parents of children with ADHD often feel that they need to take sole responsibility for managing all aspects of their child's treatment and education. In contrast, the best outcomes for kids with ADHD are typically associated with well-coordinated professional care.

Dr. Cassano will introduce the theme for this year's parent group speaker series by providing a brief summary of a multidisciplinary approach to managing ADHD and advice on how to build the best team of professionals to help manage all aspects of a comprehensive treatment plan.

Dr. Mike is a licensed clinical psychologist, and the founder of Dragonfly Psychological Associates PC, providing evidence-based psychological services for children, teens, families, and adults.

There is no charge for CHADD members. A \$5.00 donation is suggested for non-CHADD members.
